Alex Morgan - FICTIONAL SAMPLE RESUME

Fictional digital business analyst with ecommerce delivery experience.

Prototype evidence notes: explicit assessments for a controlled rules demonstration. These are fictional claims, not verified facts. This format is not a general-purpose resume understanding system.

Evidence [requirements]: Demonstrated | Led discovery workshops and wrote checkout acceptance criteria at Fictional Retail, 2022-2025.

Evidence [process]: Demonstrated | Mapped order fulfilment processes and agreed improvements with operations at Fictional Retail.

Evidence [uat]: Demonstrated | Coordinated UAT with business users and triaged release defects at Fictional Retail.

Evidence [roadmap]: Adjacent | Proposed quarterly roadmap options; the product manager owned final roadmap decisions.

Evidence [discovery]: Adjacent | Supported customer interviews and synthesized findings with the product manager.

Evidence [backlog]: Demonstrated | Prioritized the checkout delivery backlog within agreed product objectives.

Evidence [planning]: Demonstrated | Owned release plans, dependencies and risk tracking for a fictional checkout migration.

Evidence [stakeholders]: Demonstrated | Aligned engineers and operations stakeholders on release scope and changes.

Evidence [delivery]: Demonstrated | Owned delivery reporting and release coordination for the checkout migration.

Evidence [sql]: Limited | Used basic SELECT queries; has not written complex production SQL transformations.

Evidence [pipelines]: No evidence | No production data pipeline work is included in this fictional career record.

Evidence [warehouse]: No evidence | No warehouse architecture work is included in this fictional career record.
